

The Brussels Times

Privacy Policy

Last updated: September, 2021

Every website naturally collects information about how its pages are being used. At a basic level, web servers record all activity in log files, while statistical analysis programmes gather aggregated information to help publishers understand how their sites are being used. And when a reader registers on our website, your email address and other information you may supply is stored securely for specific reasons.

Different users will have different levels of interaction with The Brussels Times. You may simply browse our content – read our articles, or search for jobs – without actively giving us any information about yourself. Or you may register your email address so that you can receive our daily and weekly news.

Whichever of these applies to your use of The Brussels Times, you should familiarise yourself with the information below and our terms of use.

Registration forms and personal data

By completing and submitting the registration form on our website you will be able to access certain additional products and services that we provide. You agree that we will send you the newsletter you have requested to receive. We may also mail you occasionally with updates about the service and information about your registration.

By registering, you will be providing The Brussels Times with certain data. The Brussels Times collects and uses two types of data about users of its sites: (1) Personal Data - (names and email addresses etc) via which it is possible to identify an individual from that information; and (2) Aggregated Data - being all other information that relates purely to generic statistics such as traffic flow and demographics.

Personal Data

The Brussels Times will only collect, use and transfer Personal Data about you if you have consented to that collection, use and transfer, unless The Brussels Times believes that such action is necessary to (a) conform to legal requirements (b) protect and defend its rights or property (c) enforce this User Agreement or (d) act to protect the interests of its users or others.

You give your consent in the following way:

By completing and submitting the Registration Form you automatically consent to The Brussels Times:

- collecting the information that is on the Registration Form, and information about your movements around and use of this site and other The Brussels Times owned or managed sites, for the purposes described below.
- contacting you with relevant material, for example about your use or potential use of this site.
- transferring your Personal Data to other The Brussels Times companies (subsidiaries or affiliates), and to those The Brussels Times companies contacting you with other relevant material, for example about your use or potential use of this site or other The Brussels Times owned or managed sites.
- transferring your Personal Data to The Brussels Times' site franchise partner if this site is one which The Brussels Times publishes and manages for a third party franchise partner (e.g. a club or organisation), and to that franchise partner contacting you with other relevant material.
- transferring your Personal Data to any data processors that The Brussels Times has nominated to act as its agent for any of the above activities. The data will always remain under the control and direction of The Brussels Times.
- transferring your Personal Data to any country in which a server belonging to The Brussels Times is located for the purpose of providing you the sites and services within The Brussels Times' network and for conducting the above activities.

You can unsubscribe from any of these services at any time by emailing The Brussels Times at info@brusselstimes.com

Aggregated Data

Other non-personal information will be collected and used by The Brussels Times and may be transferred to third parties. Any such statistical or demographic information will not include personal details through which you could be identified. In addition to non-personal information given on your Registration Form, information is automatically collected about traffic around the site. This is also only used in aggregate form and no individual registered user will be identified.

Cookies

Site functionality cookies

The Brussels Times uses "cookies" to determine whether a user is signed in or not and, from time to time, to ensure that a piece of information is only displayed to users a certain number of times. A cookie is a small piece of information sent from web sites you visit (including The

Brussels Times) to your computer to help identify you quickly. Cookies are not used to identify individuals personally and no personal information is stored in relation to the cookies.

Third party cookies

We use external advertising companies to display advertising when you visit The Brussels Times. The software that displays these advertisements also uses cookies, known as 'third party cookies'. These cookies may be used to help display more relevant advertisements to you.

These companies may use information (not including your name or email address) about your visits to this and other sites in order to provide advertisements about goods and services of interest to you.

Third party cookies may include behavioural targeting cookies. These are also intended to help display more relevant advertisements to you by using information about other sites you may have visited previously.

Third party cookies also include those from our data analytics providers. These allow us to analyse the use of our sites and do not identify users individually.

Refusing and removing cookies

At all times, you may adjust your computer's web browser settings to refuse all cookies. However, by doing so, you may not be able to use certain features on web sites and, if you wish to use our discussion forums or comment on articles, you will be asked to log in each time you visit.

You can also remove all cookies from your computer – or specific cookies that you wish to remove – by opening your internet browser's settings and finding the privacy or content settings.
